Community Development Foundation
CDF Creating jobs. Developing Communities. Fostering Business.

“It is the responsibility of the people of Mississippi to try to raise the level - economically, educationally, spiritually, and otherwise - of all the people of Mississippi. There’s nobody else who’s going to come in here and do it for us.”
- George McLean
Founder, Community Development Foundation

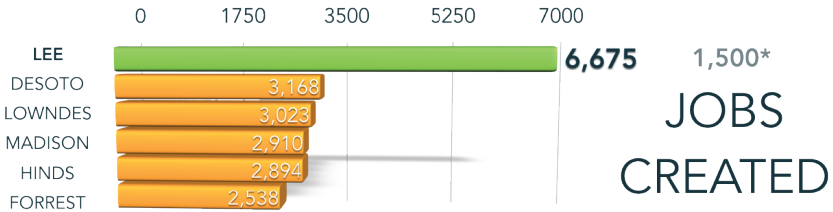

IMPACT

Everyday at CDF is spent working toward the creation of ‘more and better jobs’, a mantra adopted from our founder, George McLean.

CDF Economic Development Results 2006-2016

For the last 10 years, Lee County has been the undisputed leader in job creation, with our CDF winning twice the number of projects as any other area in the state.

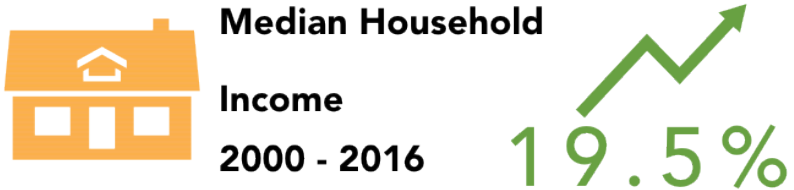

We have welcomed new industries including Toyota, General Atomics, and others; as well as expansions of our existing industries including Tecumseh, Cooper Tire, and H. M. Richards, to name a few.

We do this because sustainable success in economic development is important to every citizen. Whether directly or indirectly, we all benefit from the new jobs created, capital invested, and increase in Lee County’s average wage.

When people have more money in their pockets to spend at local businesses, our businesses, we gain resources needed to focus on Tupelo/ Lee County’s quality of place.

It is this ‘quality of place’, manifested through the building of youth sports programs and facilities, school support organizations, civic club projects, cultural activities, and more, that make our area a place where we and others want to live.
